- Click High School
- Click on +Courses
- Review and Submit Courses

Step #3

Get a signature

 Parent/Guardian Signature

Step #4

Meet with Guidance Counsellor to review plan and hand in paper copy (official record)

Opting Out of e-Learning Graduation Requirement

Students are required to earn two online learning credits to graduate from secondary school, beginning with every student who entered Grade 9 in the 2020-21 school year.

The graduation requirement is intended to support students in developing familiarity and comfort with working and learning in a fully online environment, as well as developing digital literacy and other important transferable skills that will help prepare them for success after graduation and in all aspects of their lives.

Meeting the online learning graduation requirement should not pose a barrier to graduation for students. As with all learning, students taking online courses will have access to the supports they need through their school, (e.g., guidance, nutrition programs, extra-curricular activities and services for English-language learners). If a student in a publicly funded school has an Individual Education Plan, the plan should be shared, when appropriate, with an educator instructing an online course delivered by another publicly funded school board, with the necessary consent.

Parents/guardians may choose to opt their child out of the mandatory online courses required for graduation. Students age 18 years of age or older or students who are 16 or 17 years of age and have withdrawn from parental control can also opt out of the graduation requirement. School boards must also allow for students and parents/guardians to opt back into the online learning graduation requirement should their decision change.

I agree with the following statements:

- Having reviewed the online learning graduation requirement and the availability of supports for online learning through my child's/my school, I would like to opt my child/myself out of this requirement.
- The benefits of online learning have been shared with me by the school, including how the development of digital literacy and other important transferable skills are intended to help prepare students for success after graduation and in all aspects of their lives.

I understand the following statements:

- Upon receipt of this form by my child's school/my school, my child/I will not be required to earn two online learning credits to earn an Ontario Secondary School Diploma.
- My child/I will face no academic penalties for opting out of this graduation requirement.
- My child/I will continue to complete all other applicable graduation requirements.
- This will be recorded on my child's/my transcript as "Online Learning Graduation Requirement - Non-Applicable".

Confirmation of Opting Out of e-Learning Graduation Requirement

Student's Last Name, First Name: _____

Student's OEN: _____

Parent/Guardian First Name, Last Name: _____

Date: _____

Signature of Parent/Guardian or Student Age 18 or older: _____

Please note: When you return this form, it will be included in your child's/your Ontario Student Record. For additional information about the opt-out process, please contact your school.

******If you have signed this portion of the form in a previous year, please disregard it**
