

“Casper is an online, open-response situational judgment test (SJT). It asks what you would do in a tough situation, and more importantly, why. It screens applicants for 10 non-cognitive competencies, such as ethics, empathy, problem-solving and collaboration. This helps determine behavioral tendencies of applicants pursuing people-centered professions.”

- 12 scenarios (8 video-based and 4 text-based)
- 60-90 minutes to complete
- Casper test must be reserved and taken on a specific date
